Question:

If a club is going through the process of court construction or the construction of a new facility does Pickleball Canada's insurance cover these projects?

Answer:

In situations where a Board decision leads to an ongoing business venture (i.e. constructing/managing a facility) then that venture will require separate coverage as it exceeds the scope of what is deemed "normal operations" of an association/club under our policy. It is best to obtain separate insurance coverage for this project.
