

Hello all Pickleball Canada credentialed Referees and Verified Trainees

The Officiating Work Group (formally the Officiating Advisory Council) has been working on a revised and updated DRESS CODE which outlines what clothing should be worn and in which cases they are authorized to be worn.

The importance of this update has been necessitated with the realization that not all Referees are aware of the policy nor understand the importance of complying with the dress code.

Earning credentials is not an easy evolution but once received you have become a “PROFESSIONAL REFEREE” and it is expected that everyone will always act and appear PROFESSIONAL while wearing the uniform, whether on duty or not! You also need to understand that while in uniform you are subject to the Pickleball Canada Code of Conduct, which allows PC to enforce these policies.

While each Referee is responsible for their appearance and compliance with the policy, Tournament Head Referees are further tasked with ensuring that there is compliance at their event. Particular attention should be paid to photographs taken, at all events. If personnel are not in compliance with the policy, those photographs should not be used or shared on social media or elsewhere.

Any questions or concerns should be addressed through your Provincial Head Referee or Representative.

I am hoping that this information will be seen as a positive step in furthering our profession and that individual preferences can be set aside.

As a reminder, PC Referee clothing is now available through the PC website...
