

Province / Territory of Residence : *Saskatchewan*

Executive Bio:

Pickleball is at a pivotal moment in Canada. The sport is growing rapidly, expectations are increasing, and the opportunities ahead have never been greater. I believe Pickleball Canada needs leaders who understand both the game on the court and the governance required to build a world-class national sport organization.

I bring a combination of expertise and experience that few candidates can offer.

Professionally, I am a Fellow Chartered Professional Accountant (FCPA), ICD.D-certified corporate director, entrepreneur, and former CEO, CFO, and technology executive. I have served on more than 30 boards across Canada, helping organizations navigate growth, strategy, risk, innovation, and governance. Today, I continue to advise boards and leadership teams while serving in governance roles across the country.

Personally, I am passionate about pickleball. Since discovering the sport in 2021, I have competed in tournaments across Canada, the United States, and Europe, earning over 40 medal finishes in high level competition. I also volunteer as a referee and support clinics and player development initiatives. These experiences have given me firsthand insight into the needs of players, clubs, officials, and provincial organizations.

What motivates me is the opportunity to help shape the future of pickleball in Canada. I believe we can grow participation, strengthen development pathways, enhance governance, support our provincial partners, and create an organization that is recognized internationally for excellence while remaining welcoming, inclusive, and community-focused.

I am not seeking a Board position simply because I love the sport. I am seeking it because I believe my governance expertise, strategic leadership experience, and commitment to pickleball can help Pickleball Canada successfully navigate its next chapter and realize its full potential.
